

PRAVEEN SINHA

Interaction Designer | UX Engineer | UX Educator

I am a trans-disciplinary designer with 7+ yrs of experience of working in multiple work scenarios of startups, freelance, MNC e.t.c. I am curious about the upcoming embedded design experiences of new technology like AI, AR & VR.

My approach towards design is a mix of design thinking, design futures and user centered design. I have been exploring and cataloguing my experiments with new media since 2017. Would love to share my skills, thought process & knowledge with companies channeling their expertise for the new age socio-technological world .
